Technology Needs Assessment

Project financed by GEF within the framework of the Poznan Strategic Programme on Technology Transfer.

Introduction to Database and Guidebook support

**Follow-up to the First regional capacity building workshop
(Second round countries)**

27-28 September 2011

Port Louis, Mauritius

**TNA Team
UNEP Risoe Centre, Denmark and
ENDA, Sénégal**

Country Support Matrix

Technology Action Plan	<ul style="list-style-type: none"> National TNA Committee Project Steering Committee 	<ul style="list-style-type: none"> National Consultants Work groups 	<ul style="list-style-type: none"> TAP Template Financing Guidebooks 		

Information sharing - Components

- [TNA Handbook](#) – Provide general methodology
- [Barrier Analysis Guidebook](#) – Supplements the TNA handbook on barrier analysis and enabling framework
- [Climate Techwiki](#) – An online platform on climate technologies for mitigation and adaptation which UNEP / URC are promoting along with UNDP
- [Technology Guidebooks](#) – Focussed on both mitigation and adaptation technologies within sectors. These would complement the Climate Techwiki
- [Technology Transfer Series](#) – New publication series addressing important issues related to the project
- [Help Desk Facility](#) – Immediate problem solving support provided by ENDA
- [Extranet](#) – Exchange of country level documents, workshop reports and intermediate documents not ready for publishing
- [TNA newsletter](#) - Project related information sharing

Methodological guidance

TNA Handbook

Barrier analysis guidebook

Available at project extranet at
www.tech-action.org

□ **ClimateTechWiki** was initially developed as a supporting tool for the [Handbook for Conducting Technology Needs Assessment for Climate Change](#) to support developing countries in prioritizing technologies for climate change mitigation and adaptation.

□ **ClimateTechWiki** is also a valuable resource for a wide range of stakeholders in developed and developing countries who are involved in technology transfer and the wider context of low emission and low vulnerability development pathways.

Climate Techwiki

ClimateTechWiki
An online clean technology database

[Home](#) [Discussions](#) [Welcome](#) [About](#) [FAQ](#) [Contact](#) [Partners](#) [Portal](#)

Web address : <http://www.climatechwiki.org/>

ClimateTechWiki offers information on technologies for mitigation and adaptation in terms of:

- ✓ how they work,
- ✓ their market status,
- ✓ socio-economic and environmental co-benefits,
- ✓ financial requirements and costs, as well as
- ✓ practical examples of their transfer and implementation

Technology Transfer Perspectives Series

First Issue

Enabling frameworks for renewable Energy technologies in developing countries

Published November 2011

Four preprint articles available online

- *FIT for use everywhere? Experience with renewable energy feed-in tariffs.*
- *Bioenergy in India: Barriers and Policy Options*
- *Enabling Environment and Policy Principles for Replicable Technology Transfer: Lessons from Wind Energy in India*
- *An enabling framework for wind power in Colombia: what are the lessons from Latin America?*

Second Issue

Technologies for Adaptation: Perspectives and Practical Experience

Published November 2011

This issue focuses on clarifying the Concepts regarding technologies for adaptation to climate change, i.e.

- how to practically delineate 'adaptation technology' from the generic concept of 'adaptation'.
- What are the challenges in using a technology approach to adaptation

Help Desk Facility

- The Help Desk Facility is an information platform created and operated by ENDA
- The objective is to provide fast responses to questions and clarifications to the national teams
- One person from ENDA is dedicated to this specific task
- ENDA will compile all questions and answers and distribute this regularly on a mailing lists to countries
- Questions will be addressed to
< tna_ebt_enda.energy@hotmail.com >

Extra net

- Internal Information Sharing facility for project members
- Mainly used for sharing of planning and policy documents at the national level and between countries in the TNA project
 - Country planning documents, country statistics,
 - Draft documents or non published documents
- Can be used for draft methodological documents
 - E.g. the first draft version of the barrier analysis handbook
- Access through www.tech-action.org click 'extranet'
- Username and password for reading:
 - user name: risoedmz\tnavisitor
 - password: password
- Access for upload: Will be sent to each participant

Thanks for your attention!
